## Analysis Seminar

---

**H. Render**

will speak on

### **Generalized Bernstein operators**

Tue 10th April 2018 at 4:00PM

Location: SCN 125

In this talk we discuss the existence and properties of generalized Bernstein operators in the context of extended Chebyshev spaces. Special analysis is given to Bernstein operators in the polynomial setting which fix the constant function 1 and the function  $x^3$  with respect to an interval  $[a, b]$  containing 0. This talk is based on a joint work with J.M. Aldaz (Universidad Autónoma de Madrid)

This talk is part of the **Analysis** series. For more, see
