Analysis Seminar

Title: Harmonic and polyharmonic mappings on the plane

Speaker: Stavros Evdoridis (Aalto University, Finland)

Date: Tue 10th November 2020 at 4:00PM

Location: Seminar Room SCN 1.25

Abstract: This talk is concerned with harmonic and polyharmonic mappings on the complex plane. After presenting similarities and differences between the theory of analytic functions and harmonic mappings, we will discuss some new results on polyharmonic mappings.
