

Statistics and Actuarial Science Seminar

Title: Computational Metabolomics as a game of Battleships

Speaker: Vinny Davies (University of Glasgow)

Date: Mon 7th February 2022 at 12:00PM

Location: Online

Abstract: Liquid chromatography (LC) coupled to tandem mass spectrometry (MS/MS) is widely used in identifying small molecules in untargeted metabolomics. Strategies for acquiring data in LC-MS/MS are however very limited and we usually only acquire around 30
