Title: Weighted polynomial approximation and applications to universal Taylor series

Speaker: Stéphane Charpentier (Aix-Marseille Université)

Date: Tue 29th October 2024 at 3:00PM

Location: E0.32 (beside Pi restaurant)

Abstract: We will derive some answers to questions related to universal Taylor series with the help of (quantitative) weighted polynomial approximation. This is a joint work with Konstantinos Maronikolakis.
