

## Analysis Seminar

**Title:** Interactions between universality of composition operators and complex dynamics (part II)

**Speaker:** Myrto Manolaki

**Date:** Tue 1st April 2025 at 2:00PM

**Location:** E0.32 (beside Pi restaurant)

**Abstract:** This talk is concerned with universality properties of composition operators  $C_f$ , where the symbol  $f$  is given by a transcendental entire function restricted to parts of its Fatou set. We

(Joint work with Vasiliki Evdoridou and Cliff Gilmore)
