Title: A half-line of Schur idempotent norms

Speaker: Rupert Levene

Date: Tue 3rd November 2026 at 3:00PM

Location: N0.20 - Science North

Abstract: We show that every sufficiently large real number is the norm of an idempotent Schur multiplier, answering a question posed by the speaker in 2012. The proof involves graphs obtained by hanging trees from the vertices of a carefully chosen 'core' graph.
