

Gravity Seminar

Title: informal discussion group

Speaker: Bernard Kay (University of York)

Date: Fri 22nd February 2008 at 3:00PM

Location: CASL Seminar Room - Belfield Office Park

Abstract: This informal meeting will feature the opportunity of posing further questions to our visitor Bernard Kay (University of York) on his recent work on matter-gravity entanglement or other matters related to quantum field theory on curved space-time. Any time remaining can be spent in discussion.

All are welcome to attend. Please email for directions to CASL.

This seminar series is intended as an opportunity for researchers in gravity to come together in an informal setting to discuss their interests. This includes, but is not limited to: presenting one's own research, journal club, etc. We hope you will support this exciting new venture.
