

Meteorology Seminar

Title: Influences of the 11-year sunspot cycle on the stratosphere – and the importance of the QBO.

Speaker: Prof Karin Labitzke

Date: Thu 24th April 2008 at 2:15PM

Location: Mathematical Sciences Seminar Room

Abstract: In addition to this seminar at UCD, Prof Labitzke will address the Irish Meteorological Society at 8pm, Botany Lecture Theatre, Trinity College Dublin, with the title:

Variability in the stratosphere: the Sun and the quasi-biennial oscillation.
