

## Meteorology Seminar

**Title:** Influences of the 11-year sunspot cycle on the stratosphere – and the importance of the QBO.

**Speaker:** Prof Karin Labitzke

**Date:** Thu 24th April 2008 at 2:15PM

**Location:** Mathematical Sciences Seminar Room

**Abstract:** In addition to this seminar at UCD, Prof Labitzke will address the Irish Meteorological Society at 8pm, Botany Lecture Theatre, Trinity College Dublin, with the title:

Variability in the stratosphere: the Sun and the quasi-biennial oscillation.
