K-Theory, Quadratic Forms and Number Theory Seminar

Ms. Judith Millar (Queen's University, Belfast)

will speak on

K-theory of Azumaya algebras

Wed 26th November 2008 at 3:00PM

Location: Mathematical Sciences Seminar Room

The concept of a central simple algebra over a field is generalised by an Azumaya algebra over a commutative ring. We will look at the relationship between the K-theory of an Azumaya algebra and the K-theory of its centre.

This talk is part of the **K-Theory, Quadratic Forms and Number Theory** series. For more, see
