K-Theory, Quadratic Forms and Number Theory Seminar

**Professor Heng Huat Chan (National University of Singapore
and MPIM)**

will speak on

Ramanujan and the theory of modular forms

Wed 30th September 2009 at 3:00PM

Location: Mathematical Sciences Seminar Room

In this talk, I will first introduce the Indian mathematician Srinivasa Ramanujan. I will then present several results of Ramanujan's mathematics that have close connections with the theory of modular forms.

This talk is part of the **K-Theory, Quadratic Forms and Number Theory** series. For more, see <https://maths.ucd.ie/seminars>
