K-Theory, Quadratic Forms and Number Theory Seminar

Dr. Alessandro Cobbe (Scuola Normale Superiore, Pisa)

will speak on

**Steinitz classes of tamely ramified Galois extensions of
algebraic number fields**

Wed 17th February 2010 at 4:00PM

Location: Mathematical Sciences Seminar Room

The Steinitz class of a number field extension L/K is an ideal class in the ring of integers O_K of K , which, together with the degree $[L : K]$ of the extension, determines the O_K -module structure of O_L . These two factors

This talk is part of the **K-Theory, Quadratic Forms and Number Theory** series. For more, see <https://maths.ucd.ie/seminars>
