K-Theory, Quadratic Forms and Number Theory Seminar

Dr. Pawel Gladki (University of Silesia)

will speak on

Quotients of the space of orderings of the field $\mathbb{Q}(x)$

Wed 24th February 2010 at 4:00PM

Location: Mathematical Sciences Seminar Room

In this talk we present a method of obtaining new examples of spaces of orderings by considering quotient structures of the space of orderings $(X_{\mathbb{Q}(x)}, G_{\mathbb{Q}(x)})$. *It is, in general, nontrivial to determine whether, for a subgroup*

This talk is part of the **K-Theory, Quadratic Forms and Number Theory** series. For more, see <https://maths.ucd.ie/seminars>
