K-Theory, Quadratic Forms and Number Theory Seminar

Dr. Nikolaos Diamantis (Nottingham)

will speak on

A converse theorem for double Dirichlet series

Wed 20th October 2010 at 3:00PM

Location: Mathematical Sciences Seminar Room

We discuss a first converse theorem about double Dirichlet series asserting that a double Dirichlet series satisfying suitable functional equations and holomorphicity conditions originates from metaplectic Eisenstein series. This is joint work with D. Goldfeld.

This talk is part of the **K-Theory, Quadratic Forms and Number Theory** series. For more, see
