Applied and Computational Mathematics Seminar

**Professor George Rowlands (Dept. of Physics, University of
Warwick)**

will speak on

Lagrangian Methods in Plasma Physics

Wed 2nd February 2011 at 3:00PM

Location: C112, Health Sciences Building

Brief CV: Prof. Rowlands is an expert in Plasma Theory and Fluid Dynamics, with more than 160 publications, totalling more than 1600 citations. In addition, he co-authored the top-cited book (+400) entitled "Nonlinear Waves, Solitons and Chaos" (CUP, 1990).

This talk is part of the **Applied and Computational Mathematics** series. For more, see
