

## Algebra and Number Theory Seminar

**Title:** Security in the Cloud

**Speaker:** Richard Moloney (UCD)

**Date:** Wed 30th March 2011 at 2:00PM

**Location:** CASL Seminar Room - Belfield Office Park

**Abstract:** Cloud computing services are becoming ever more popular, but this model presents new security challenges which have yet to be adequately addressed. In this introductory talk, we will discuss some of the security issues which are particular to cloud computing.
