

AGA

Analysis, Geometry, Algebra

8-10th May, 2019

Trinity College Dublin

From 8th to 10th May 2019, Trinity College Dublin will host a conference on all areas of mathematical analysis including complex analysis in several and infinite dimensions, operator algebras, operator spaces, bounded symmetric domains and spaces of analytic functions.

The range of topics reflects the work of Professor Richard Timoney and this meeting marks his contributions to mathematics and TCD.
