

# ***Understanding the Financial Crisis: Did Mathematical Models Fail?***

*“Turbulence in the West” by Geraldine Folan*

***UCD, Wednesday 10<sup>th</sup> June, 2009***

***<http://mathsci.ucd.ie/conferences/understanding09>***

***Venue: Quinn Business School, UCD, Belfield, Dublin***

<b><i>Patrick Honohan (TCD)</i></b>	<b><i>Systemic issues in financial regulation: a new generation of mathematical models or better understanding of what we've got?</i></b>
<b><i>Gregory Connor (NUI, Maynooth)</i></b>	<b><i>Portfolio Risk Analysis in the New, New Millennium</i></b>
<b><i>Shane Whelan (UCD)</i></b>	<b><i>Modesty: The Missing Element of Mathematical Models of the Market</i></b>
<b><i>Panel</i></b>	<b><i>Brian Coffey (Merrill Lynch), Gregory Connor (NUI, Maynooth), Colm Fitzgerald (DCU), Patrick Honohan (TCD), Shane Whelan (UCD)</i></b>

***Non academic participant's fee: €125***

***Payment can be made at the time of registration or by cheque payable to UCD, to be sent c/o Rhona Preston, UCD School of Mathematical Sciences, Belfield, Dublin 4.***

***All wishing to attend should inform Rhona Preston ([rhona.preston@ucd.ie](mailto:rhona.preston@ucd.ie))***

***Organisers: Anthony Brabazon (UCD Quinn Business School),  
Adrian Ottewill & Siddhartha Sen (UCD School of Mathematical Sciences)***
