

TUTORIAL CLASSES IN MATHEMATICS AND PHYSICS 11 JULY– 29 JULY, 2005

The Departments of Experimental Physics and Mathematics intend to offer tutorial classes in **experimental physics EXPH1001** and **pass mathematics MATH1200** for FIRST YEAR students in Science who are preparing for the Autumn examinations. Tutorials will be given by full-time staff members or doctoral students who have for several years successfully assisted students in achieving their academic goals.

- Please note that we are **not** offering tutorials in **biophysics EXPH1100**.

The following timetable gives the schedule of tutorial lectures.

PASS MATHEMATICS MATH1200	9.15 a.m. to 10.15 am Teaching Room, Mathematics Dept., Second Floor, Science Lecture Building, UCD, Belfield
EXPERIMENTAL PHYSICS EXPH1001	10.30 a.m. to 11.30 am Teaching Room, Mathematics Dept., Second Floor, Science Lecture Building, UCD, Belfield

Tutorials will commence on MONDAY, 11 JULY 2005 and will end on FRIDAY, 29 JULY 2005. There will be a tutorial **each week day**, but excluding Saturdays and Sundays. The tutorials will be half an hour longer on Thursdays and Fridays to enable at least 18 hours of tutorials to take place.

The fee will be 50 euro for each subject (100 euro for both subjects). Students taking the mathematics tutorial may, on payment of an additional 30 euro, have homework problems corrected and discussed.

Application on the form included, accompanied by the appropriate fee, should be forwarded to:

PROF. R. GOW, MATHEMATICS DEPT., SCIENCE LECTURE BUILDING, UNIVERSITY COLLEGE, BELFIELD, DUBLIN 4.

Enquiries about tutorials should be addressed to me, R. Gow, Mathematics Department, UCD. (tel. Dublin 716 2575, e-mail rod.gow@ucd.ie). In the event of my absence, informal enquiries can also be addressed to the Mathematics Department Office, UCD, 716 2580. You can also check my web site: <http://www.maths.ucd.ie/~rodgow/> to look for updated information. Homework problems and exam papers will be available for downloading from the web site once the tutorial begins.

Students should assume that the classes will begin on 11 July (unless officially told to the contrary) and do not need to seek confirmation of their acceptance for the classes. Check my web site in case of any urgent news. There should be plenty of room for all intending participants.
